

## **Resident Council**

HUD promotes resident participation and the active involvement of residents in all aspects of a housing authority's (HA's) overall mission and operation. Residents have a right to organize and elect a resident council to represent their interests. Public Housing Authorities (PHAs) shall recognize the 'duly elected' resident council to participate fully through a working relationship with the PHA.

Resident leadership remains focused on building a better community. Community Engagement continues to partner with CPAB, assisting with programming, publicity, transportation, and support.
