

Resident Testimonials

- “As a resident of the Harris Homes Community, it is evident that the staff of the center are passionate about the community and very much eager to assist and meet the needs of the residents in any way possible. I am currently a student at Miles College and I have a four-year-old son. Mr. James and Ms. Freeman have gone above and beyond to ensure that I am successful in completing my degree. They have introduced me to several resources and solutions that have been tremendously beneficial to my future. They have encouraged me to be a member of the Family Self Sufficient program with HABD; I am a weekly participant of the Harris Home Sewing Class, Campus of Hope of Marks Village, and the Harris Home Adult Support Group with Church of the Highlands Woodlawn Campus. I am also a 2019 recipient of the Naomi Truman Scholarship with high hopes of receiving the Naomi Truman Scholarship for year 2020. I could go on forever about the staff of the community center but I will close by saying, they are simply the best.”

Delorious Wilson,

Harris Homes Resident

- “I truly enjoy the time I spend at the community center. We are currently learning some money management skills, but my favorite thing to do is the weekly Bingo game on Friday. The fellowship and prizes are priceless; and the staff is caring, helpful and always greets us with a smile.”

Dorreen Jelks

Morton Simpson

- “I have benefited from the programs at the community center in many ways. I have toned muscles that I have not used in years. Chair aerobics has also helped me to do daily choirs at home and relax. Coming to the community center allowed me to meet other residents and talk about different topics and events going on at the community center and community as a whole. I enjoy all the programs offered at the community center.”

Phyllis Slaughter

Kimbrough Resident

- “Tom Brown community center is a great place for resources, unwind when the kids are away just to have time to yourself. It has beneficial to help get great leads to jobs due to job postings. The staff is very interactive in the community.”
